## Acca ethics and professional skills module pdf free printable version

This is very similar to the approach you'll be required to take at Strategic Professional exams. The same peer review process is then repeated with another virtual peer assessment group. You will also receive feedback on your presentation. Use our career navigator to find out what skills are linked to the Ethics and Professional Skills Module. The benefit of the feedback received is that you can identify where you underperformed and can work on weaker areas before resubmitting your work. If you have not been successful you will be provided with feedback and invited to resubmit your presentation. Professional skills are specific skills that you generally acquire through work-place experience - for example team-working, communication, negotiation ability. Our Ethics and Professional Skills Module is designed to provide students with the complete range of skills employers need. Preparing students for a career as a trusted and confident finance professional, the interactive online module places students in realistic business situations, where they'll develop advanced ethical, professional and digital skills needed to shine in the workplace. The Ethics and Professional Skills module is an essential part of the ACCA Qualification and helps increase your employability and workplace effectiveness. Once this has been completed and your submission has been reviewed by five peers, the system will provide you with a dashboard which notifies you of your assessment result (pass or fail). If you don't pass first time, then you will get feedback and you can try again until you are successful - without having to pay any additional fees. There is a one off cost for the module, with no resit fees. Once a student has paid for the module they will be able to do the assessment multiple times and have unlimited access to the module content. Peer assessment also motivates learners to improve the effort they make with an assessment because they know it will be reviewed and assessed by their peers. Can't watch on YouTube? Watch on an alternate player Additional student benefits The skills developed within the module greatly enhances students chances of success in these exams. We therefore recommend students complete the module before attempting Strategic Professional exams. On completion of the module students will receive a certificate of achievement - a great resource to evidence their professionalism to existing and future employers. A final benefit is the fairness of the assessment in that the learner is not wholly reliant on the opinion and judgement of one assessor and can be more assured that their result will be safeguarded against inconsistent marking. You will receive a Certificate of achievement. If you have not received your result within three days of submitting your presentation and completing your review of five presentations, you should contact the Connect help desk who will individually investigate your submission. To find out the cost of the module please visit our pricing page. The module uses realistic business simulations to develop a number of professional skills such as leadership, communication and commercial awareness. You will need to rate each submission against three assessment criteria by selecting one of five grade descriptors. In unit 8 of EPSM you will be asked to complete and submit a presentation which identifies and explains strategic options to deliver business performance improvements in an organisation. So to have technical knowledge, skills and abilities - combined with professional skills and qualities - will be much more in demand by employers. The module helps you to develop the professional skills you need to demonstrate in your Strategic Professional exams. It helps focus your thinking on real world work scenarios, developing your understanding and skills on how to approach the challenges presented. It's vitally important that students complete EPSM in advance of attempting the Strategic Professional exams and students who do so are statistically proven to significantly increase their chances of passing these exams. To find out more about the benefits of completing EPSM at different stages of your exam journey, and which units best support each Strategic Professional exam watch our video series. The principal of peer assessment is that students review and objectively assess the work of other students and also have their own work reviewed and assessed using consistent criteria and associated grade descriptors. See the full list of FAQs about the Ethics and Professional Skills module. Peer assessment improves the knowledge and skills of learners since they benefit from seeing others' work and also get feedback on their own work. The module takes approximately 15 hours to complete and to find out the current module fee please visit our pricing page. Module award Once you have completed the module you will receive a certificate and be one step closer towards ACCA membership. Can't watch YouTube? Watch the video in an alternate player EPSM is an essential step to ACCA membership but it is also a crucial support tool for the Strategic Professional exams. Following completion of this module students should move onto the Strategic Professional exams. View the EPSM syllabus for full details on what you'll learn and gain from the module. Just like our exams, we regularly update the module so it contains all the latest ethical, professional and digital skills needed by finance professionals today. This means there may have been new units added to the module since you completed it and received your completion certificate. Should this be the case your completion bar may fall below 100%, but this does not impact impact your completion status and it is not compulsory for you to complete any new content added to the module. However, you will be able access this new content should you wish to keep your skills up-to-date. After the peer assessment has been successfully completed you will be able to continue with the EPSM module. It is expected that the module will take students approximately 15 hours to complete. The module is made up of ten units in total, which includes an end assessment which assess students on what they have learnt throughout the module. Students take the end assessment only once they have completed all the previous units. Your presentation will be reviewed and rated by five other students and you will be required to review and assess five presentations prepared by others. "Students who completed EPSM prior to sitting a Strategic Professional exam were 19% more likely to pass the exam." Based on September 2021 results The process should not take longer than three days and will often be completed in a much shorter time period. There is a one off cost for the module with no resit fees if you need to repeat the final assessment. The system will then randomly allocate you five presentations that have been completed by other students. The module will also support you to exam success at Strategic Professional. We therefore recommend you complete the module towards the end of completing your Applied Skills exams and before attempting any Strategic Professional exams. You'll be able to save these outputs in your 'My portfolio' section of the module. You can then use these to present to your employer - or in an interview situation - to demonstrate how you would approach and resolve these real-world scenarios. You could also share them with your PER mentor to demonstrate achievement towards your performance objectives. In order to complete peer assessment three things need to happen: 1. You submit your presentation 2. You peer review and rate the presentations of five peers 3. Five peers review and rate your presentation To enable students to pass quickly through peer review it important that all students review and rate presentations in a timely manner. You will be asked to prepare and upload your presentation to the Peer Assessment Point in Unit 8, section 8. These exams produce strategic, forward thinking professional accountants with the unique blend of skills to hit the ground running and add immediate value within their organisations. As a result of the changing business landscape globally, employers are looking for finance professionals to add value immediately. No, however EPSM will support your learning for Strategic Professional exams so we would still recommend that you take the EPSM if you have any of these exams yet to complete. Finance professionals need to demonstrate that they understand and can apply ethical and professional behaviour in real-world work situations. The EPSM helps you develop these practical real-world skills so you can make an impact from day one in organisations. The module has 10 units, with 7 learning units and 3 assessment and support units. For more information on the syllabus and structure read our EPSM syllabus guide. The module takes approximately 15 hours to complete and you are able to access any of the module content again once completed if you wish to refresh your knowledge. Module fees and estimated duration for completion To find out about the Ethics and Professional Skills Module cost, visit our fees section. The fee is a one off cost, with no additional fees required to re-take the end of module assessment should this be required. And you will also be given a personalised dashboard of your performancein the end of unit assessment and a transcript showing the skills you will have demonstrated throughout the module You'll have completed one of the three key requirements towards ACCA membership (the others being exams and experience) As you work through the module, you'll be asked to complete different tasks which you would expect to see in a real-world work scenario. There are a series of tests throughout the module and the final unit of the module is an assessment which you will need to pass.

Learn everything an expat should know about managing finances in Germany, including bank accounts, paying taxes, getting insurance and investing. Trend Hunter's long-awaited 2022 Trend Report research is ready -- and this year it's free! You can get our 2022 Trend Report HERE.
